

No Door Alteration Needed

The design of the Keybox makes it versatile – unlock the shackle and secure the keybox on fences or railings, or mount it on walls with the 4 screwholes at the back. No installation woes.

Fits the Essentials

The interior of the Keybox is spacious enough to hold up to 6 physical keys or 7 keycards. This means that you can include the essentials for your guest in it – a SIM card, a transport card and more.

Optional services

Airbnb hosts can sync listing calendars with their igloohome account so that PIN codes are automatically created for guests.

* Fees may apply.

Designed for short-term rental hosts, home and property owners.

igloohome helps people manage their homes and properties through innovative technologies.

Smart
Keybox

The smart lockbox that works offline

Your 24/7 Reception

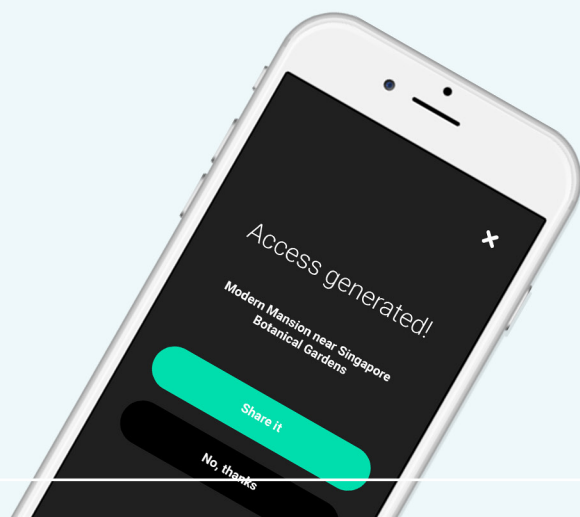

Let visitors into your property any time of the day, even when you're miles away. Check guests in without lifting a finger.

Easy Access

Create a PIN code from the igloohome app wherever you are and send it over to your guest. The keybox can be accessed by Bluetooth key as well.

Works offline

Using cryptography and synchronisation, the igloohome Keybox does not require Wi-Fi. This means no worries about connectivity or Wi-fi hacking.

Specifications

Keybox	4.5 (W) x 6.5 (H) x 1.3 (T) In
Inner dimensions of shackle	1.1 (W) x 1.8 (H) In
Inner storage space	3.3 (W) x 2.1 (H) x 0.5 (D) In
Weight	1.5kg(3.3 lbs)
Material	Zinc alloy, steel, silicon rubber
Operation method	PIN code, Bluetooth
Color	Black

KEYBOX FEATURES

Security Lockout Mode

If an invalid PIN code is entered 5 times, the keybox will stop operating for 5 minutes

Decoy Security Code

Enter random digits before your password to reduce risk of intruders checking fingerprints.

Time-Sensitive Entry

Customize the validity periods of your PIN codes. Be assured that the property remains secure after your guests' stay.

Emergency Power Supply

When lock batteries are flat, an external DC9V battery can be used to jump-start the keybox.

Access Logs

Bluetooth key access logs are updated in real time, and PIN code access logs are updated when the master owner uses a bluetooth key.

Auto Re-Lock

The keybox automatically relocks once it is shut, for greater security.
