Mobile app-enabled

Grant access to your home even when you're away and set duration of PIN codes or bluetooth keys.

Multiple entry modes

Unlock with a PIN code, or bluetooth key on your smartphone, key card or key sticker. Different modes of entry are offered for flexibility of access. The physical key is still available as a back-up.

Works offline

Our innovative encryption technology allows your lock to work without internet access, increasing reliability against WiFi hacking.

Superior security and cutting-edge technology

Smart Mortise

The smart lock goes premium
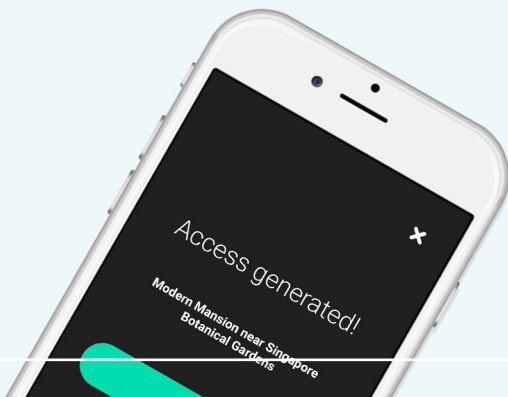

Convenience of keyless access

No more hassle of locating forgotten keys and replacing missing ones. No more frustration of accidental lock outs. No more fumbling for keys. It's fuss-free living.

View access logs

Monitor when visitors enter your home for peace of mind. PIN code access logs are updated every time the master owner uses a bluetooth key.

Optional service

Airbnb hosts can sync listing calendars with their igloohome account so that PIN codes are automatically created for guests.

	* Not included

Note: Product information is accurate at point of printing

MORTISE FEATURES

Security Lockout Mode

If an invalid PIN code is entered 5 times, the mortise will stop operating for 5 minutes

Low Battery Warning

A beep sound and red flashing keypad indicates when battery power runs slow.

Anti-Panic Exit System

Allows you to open the door by simply pulling down on the lock handle from inside, without twisting a separate thumbturn.

Electro Static Discharge Prevention

The circuit board is protected from the damages incurred from a high voltage surge.

Tamper Alarm

The lock will sound if intruders attempt to pry the lock from the door.

Emergency Power Supply

When lock batteries are flat, an external 9V D sized battery can be used to jump-start the lock.

Fire Alarm

When the sensor detects a temperature between 50-70 degree celsius inside the house, the lock will unlock automatically.

Volume Adjusting

Select the volume of the lock that suits your needs.

Sensor Re-Lock

The lock will re-lock when the door is closed.
