Antique Copper - AC

Satin Black - BK

Nickel - NK

Heritage Bathware is a Family run, Bespoke, Luxury Shower and Bathware design manufacturer. Based in Christchurch, New Zealand. We have shipped showers to every corner of the globe and believe in building the best shower experience, using the strongest materials. We make all of our products from solid Copper and Brass and believe that the experience comes before anything else.

When the Christchurch earthquakes completely destroyed all but a few pieces of our heritage restoration business we needed to urgently find a new direction.

Left with just a few elegant period taps, a passion for engineering and a drive to develop the perfect shower, Heritage Bathware was born.

We recognised the delights of being cascaded by a traditional rainmaker shower, and the demand for authentic fittings for period homes. We also saw the opportunity to enjoy these magnificent showers in more modern settings and even outdoors.

Today Heritage Bathware combines modern plumbing with traditional shower heads, to provide an unforgettable showering experience.

Michael Brown
Company Director

THE HERITAGE BATHWARE STORY

Handmade, Just For You

Rainmaker Shower Roses

Rainmaker Shower Roses

Every great shower starts with a great shower rose, our hand crafted rainmaker shower roses are engineered to give you the best shower of your life.

Cold Water Shower*

The Neptune Range is easy to install

*N2~ The Neptune 2
Twin Supply Shower*

NT ~ The Neptune Tap Set

The Nice N' Easy Shower in a box

Appollo Copper Bathtubs

Appollo Copper Bathtubs

A bold and luxurious statement, the Appollo Copper Baths will definitely be the focal point of your bathroom. With a wide variety of designs and finishes there's a copper bathtub for everyone.

The Appollo range offers:

Flat Top Baths

Single Slipper Baths

Double slipper baths

Raw Polished or aged copper finishes

Nickle & chrome plated finishes

Baths with feet or a full plinth designs

Other Designs and finishes are available, contact us for more information.

As with all of our Copper products our baths are great for outdoors, they will not corrode but age over time

Copper has great thermodynamic properties that help keep your bath water warmer for longer, unlike porcelain or concrete that draws heat away from the water. So you can relax for longer in your new copper bathtub.

The Appollo Copper Baths have a living copper finish that will age and develop over time.

Alpha Basins & Taps

Alpha Basins & Taps

To complete your bathroom or kitchen design we have a range of copper basins that can be surface mounted or counter sunk into your worktop.

A solid copper basin wouldn't be complete without a matching tap set. Our Alpha basin taps are easy to install and are made of solid copper and brass. They can be configured for out of the wall or out of the bench installation.

SB350 ~ 350mm Straight Sided Basin

RB430 ~ 430mm Rounded Basin

***YTW-15 ~ Out the Wall
Y Mixer Taps, 15mm pipe***

When ordering your copper basin you can choose from counter sunk or bench mounted designs in two different styles.

Bathroom Accessories

Bathroom Accessories

TR1 ~ Classic Towel Rail

HOOK ~ Coat Hook

The devil is in the detail, add toilet roll holders, towel rails & coat hooks to give your bathroom the finishing touch.

All fully customisable to fit your exact needs.

TH2 ~ Double Toilet Roll Holder

TH1 ~ Toilet Roll Holder

TR2 ~ Bar Towel Rail

Components

Components

600BP ~ 600mm bent Pipe

Whether you're building your own shower, or adding onto existing plumbing we offer a wide variety of components to give you the best shower. We offer Pipes, Taps, Mounting Brackets, different mixer options and many more components.

900P ~ 900mm Pipe

HHK ~ Hand Held Kit

**FW ~ Foot Wash/

Quality Assurance & Warranty

We strive to make the best product on the market, we only use the best materials and build all of our products to the highest standards to make sure you get the perfect shower.

5 Year Warranty

Heritage Bathware warrants all of its products to be free from manufacturing defects for 5 years from date of purchase. This warranty covers replacement of defective parts, not of the complete product unless deemed necessary by Heritage Bathware. This warranty does not cover damages incurred due to installation, replacement or repair, Damages due to improper use, cleaning or neglect. Heritage Bathware does not warrant the finish of the product due to the unsealed nature of the metal finishes we provide, they are provided as is and will age over time.

End-of-Life statement

All of our products and packaging are sold as fully recyclable or reusable, as such we encourage all of our customers to recycle old packaging and at the end of the products life to recycle or re purpose our products.

General Information

Unlike mass produced modern plumbing fixtures that are made of chrome plated plastic or alloys we only use solid brass and copper for all of our products, no compromises.

We do this because copper and brass are both very resistant to corrosion and will stand the test of time, They also give an amazing finish to any bathroom or kitchen setting.

We also don't use ceramic valves that can easy break with small particles and can be costly to replace, instead we only use neoprene jumpers in all of our tapware to ensure high performance, long life and easy replacability.

Our frendly design team are always available to help you build the shower you've dreamed of, give them a call today on our freephone number **0508 426 225** and they will guide you through the 5 steps of shower design today!

WELS testing

All of our shower roses have been WELS tested to a 3 star rating* ensuring they not only look stunning but are also efficient and meet New Zealand and Australian Standards for showers. You can find all of our WELS ratings on the Rainmaker Shower Rose page for low and mains pressure.

Tap Handles

We offer a range of different tap handles to fit any style, whether you want a bold industrial look, or a classic vintage style.

***Classic Cross
Handles***

T Handle Taps

Industrial Handles

Industrial Handles can be powder coated in a range of colours on request

The Heritage Collection

Handmade, Just For You

Please note: All pipes can be cut down on site to suit your location.
All fittings are supplied to accommodate this.

Do not use abrasive materials to clean these showers.

WARNING: When the shower is in direct sunlight, it can cause the water held in the shower and garden hose connecting the shower to heat up which may cause scalding. Please make sure that before using the shower to let water run for a few moments to washout any overheated water. If using a hot and cold water shower, the hot water should be tempered to a maximum of 55°C. The showers do not have a tempering device.

Please note: If shower is installed within 1200mm (4') of the pool water, please connect to an earth wire.

A qualified electrician must do the connection as per Electrical Code.

Tap handles are original period fittings restored and fitted to new taps.

Proudly manufactured in Canterbury, New Zealand

Please note: While every effort has been made to ensure that the details in this brochure were correct at the time of printing, Heritage Bathware reserves the right to alter specifications or product from that shown.
