— 2019 —

# 2019 DECOR INSPIRATION

“Our colour choices for the 2019 range ensure a neutral tone throughout, inviting Jayco customers to accessorise and make their second homes truly their own.”

- Heather Barrett, Jayco Interior Designer

The interior colours of the Jayco 2019 range will perfectly complement your outdoor adventures. This year, our colours are all about the organic, earthy hues of the Australian landscape.

In most of our 2019 models, a rich shade of timber joinery is matched with a palette of neutral tones, making your second home not only modern, but also cosy. Our new colour scheme is the perfect backdrop for adding your own flair, and for creating your own unique adventure!

## SILVERLINE + OPTIMUM DECOR

## JAYCO DECOR 2019

# NEW IN 2019

Optimum motorhome with New York tile splashback

Adding to the interior of your second home, our 2019 range offers a new splashback option: subway tiles. This versatile design will complement any colours you choose. With its smooth rendering, our new subway-tile splashback takes a classic design and flaunts a surprisingly modern aesthetic.

Highlighting this contemporary style, we've also added chic matte-black accessories to your kitchen. Subway-tiles splashback and black tapware are available in Silverline caravans and Optimum motorhomes.

Shelby bolster cushion

## **DURABLE, COMMERCIAL-GRADE FABRICS**

Our 2019 fabrics also have the luxurious appeal of natural fibres. They contain no nasty chemicals, and the colours won't rub off on your clothes.

Even after 5,000 test rubs, the fabrics did not pill and maintained their original density and appearance.

Faith bedspread

Finally, although it's unavoidable that all fabrics sustain some fading in full sunlight, our fabrics are highly UV-resistant.
