# ALL NEW 2019 JAYCO SILVERLINE

Jayco Silverline owners are a discerning collection of people, focused on quality, luxury and value for money, and this year, our 2019 edition raises the bar for lifestyle touring in Australia.

With the release of our new technology suite, **RVConnect**, Jayco Silverline is the world's first voice controlled production RV. With our unrelenting focus on innovation and comfort, this year we introduce a range of exciting simple technology features that make the transition from home to out of home seamless. Jayco want to help you pack up and hit the road more easily, more often, exploring the great road trips Australia has to offer.

We've partnered with exciting market-leading technology innovators such as Amazon and BMPRO to make the operation of your RV effortless and carefree. Lights are switched on by voice commands, awnings can be operated from your smartphone, GPS tracking allows you to find your van if stolen; our clever solutions will help you enjoy your downtime even more.

A Jayco Silverline is not just a caravan, it's a lifestyle. Be it your first trip or one of many, Jayco Silverline is the ultimate in comfort, luxury and innovation.

Touring Model

Outback Model

**1** | Modern interior boasting all creature comforts one would expect from a bespoke home. **2** | Genuine leather lounge available in your choice of 3 leather finishes. **3** | Stylish fully-equipped kitchen boasting an array of high-end appliances and kitchen essentials. **4** | Spacious modern ensuite featuring large shower, modern-style vanity with chic matte-black sink, tap and a 3.3kg washing machine. **5** | European design cabinetry featuring 'soft close' drawers with positive locking Italian hardware. **6** | Large stainless-steel sink featuring sought-after matte black sink and tapware with all-new instant nautilus hot water system- never run out of hot water again.

# INTRODUCING RV CONNECT

## World's First Voice Activated Caravan

The new Jayco Silverline caravan redefines luxury in caravanning, and now, Silverline is also the world's most advanced caravan.

The all-new technology suite RVConnect blurs the lines between home and away helping you seamlessly make the most of your leisure lifestyle. Exclusive to Jayco and standard on our production 2019 Jayco Silverline Caravan, RVConnect is a collection of lifestyle technology that includes the following features:

- 1 Amazon Alexa: A personal voice assistant that allows you to voice command a number of basic tasks such as turning your caravans lights on and off, gaining access to weather forecasts and recipes.
- 2 360-degree cameras, there are no blind spots when towing and parking – a world first in a production RV.
- 3 Smartphone app-controlled electric awning with personal presets, operated within Bluetooth range.
- 4 Winegard and Wi-Fi extender that captures signals within a significantly increased range and provides maximum security and mobile internet speed with 4G capability.

RVConnect sets a new benchmark in technology and luxury.

# JAYCO OUTBACK

Some of Australia's- must see destinations- the places you really want to explore- lie well beyond the bitumen. To help you see them, with all the comforts of home, each Jayco Silverline is also available in an Outback version, complete with higher ground clearance, and a range of high-strength componentry and specialised features, including:

- JTECH independent coil suspension
- 160W solar panel and regulator
- 150mm X 50mm rectangular hollow section chassis members
- 125mm X 50mm rectangular hollow section A-frame
- AL-KO off-road electric brake magnets
- AL-KO outback drop jacks
- Protective aluminium checker plate on sides
- 16-inch alloy wheels with 245/70R16 tyres
- Checker plate underfloor storage boxes X 3
- Foldaway single step
- External 12V auxiliary plug
- Jayco mud flaps
- External shower
- A-frame tray
- Stone guard protection

Opting for a Jayco Outback version is not a license to bush bash. But its extra strength and enhanced specification will free to travel the country's unsealed roads safely and arrive relaxed. Even so, always take extra care and reduce your speed, especially when driving in unfamiliar territory. If in doubt, do what the 4WD experts do- use your Jayco as a base camper and head into rougher terrain without anything in tow.

## TRUST JAYCO CONSTRUCTION

Whether you are planning to circuit the country or travel to your favourite local holiday hangout, you can trust Jayco's 44 years of engineering expertise.

### Tough Frame

Jayco's vacuum-bonded quad-layer wall construction technology is both stronger and lighter than the traditional 'timber & tin' aluminium-clad caravan walls. Built on lightweight aluminium frame for extra strength and longevity, Tough Frame provides great thermal and acoustic insulation.

### Suspension JTECH 2.0

Purpose-built to complement the Jayco Endurance Chassis. JTECH 2.0 is safer, more compact, durable and reacts better to road undulations so you can venture further with confidence.

### Endurance 2.0 Chassis

The new generation chassis is lightweight yet super strong with major benefits in weight saving. Our chassis are hot-dipped galvanised for lifelong protection against corrosion. They feature Jayco Pressed Steel C-Section (PSC) floor members which are lighter than convention box section steel, 300% strong and resists bending by 175%.

### Aluminium Frame

The furniture in your Jayco caravan is built on our exclusive aluminium frame for strength and durability, lasting much longer than timber furniture.

# SAFETY YOU CAN TRUST

## Electronic Stability Control (ESC or ESP)

ESC corrects for oversteering or understeering of the vehicle by applying the brake of the appropriate wheel in extreme driving conditions for improved control and stability.

## Nitrogen-Filled Tyres

Nitrogen keeps your tyres as cool as possible and helps maintain a constant tyre pressure even in hotter weather, reducing the risk of blowouts.

## 360-degree Camera

New 360-degree cameras: there are no blind spots when towing and parking – a world-first in a caravan production.

## Breakaway System

If a caravan accidentally separates from the tow vehicle, the system will activate the electric brakes and brake lights.

## Rear-view Camera

A driving aid that provides a wide, detailed view on the screen, with reference lines to help identify the distance from obstacles. It activates automatically when reverse is engaged.

# WHY BUY JAYCO?

Buying a new van, trading in or servicing the one you have, for 44 years, Australians have trusted Jayco with their holiday memories.

## AUSTRALIAN MADE

Designed and built by Australians, for Australians to take on the Australian terrain, all Jayco RVs proudly wear the Australian-made logo.

## BETTER VALUE

As the largest Australian RV manufacturer, Jayco has a great buying power and passes the savings on to our customers, delivering more features for less.

## NATIONWIDE SUPPORT

With 29 authorised Jayco dealers and 100+ service agents around the country, Jayco's support network is the most comprehensive in Australia.

## JAYCO CARE

Jayco's industry-leading customer care comprises of 2-year manufacturing warranty and 5-year structural warranty. Each new Jayco RV comes with complimentary 3 years of 24/7 Jayco Roadside Assist for peace of mind.

## GREAT RESALE VALUE

Jayco RVs keep their value exceptionally well and are considered to be a long-term investment. To help you get the best value, list your Jayco for free on [jayco.com.au](http://jayco.com.au).

“We often say that it’s like having a modern comfortable apartment with you all the time. We are totally self-contained, that means we can stop anywhere we want in our Silverline Outback.

I also love that we have everything you could possibly require in a small home. We have now completed the outer lap of Oz, and

I love our Jayco to pieces.”

*Dixie Lamers, NSW*
